VIP Reference Management Workflow

VIP Reference Management follows a structured workflow that involves multiple user roles. Each reference moves through initiator, assigner, assignee, and final reply to stages before closure (see Figure 1).

Figure 1. VIP reference management workflow

Roles and Responsibilities

The VIP reference workflow includes the following roles and responsibilities:

Initiator

Initiator can create new VIP references received at the Minister's office and forwards it to the assigner. This role is primarily assigned to Data Entry Operators.

The Initiator performs the following task:

- Creates VIP Reference in the system.

Assigner

Assigners receive new VIP reference and forward it to the relevant users or agencies for a final draft reply. The assigner can discard the VIP Reference if it is unsuitable for reply. They send the final response to the VIP and mark the VIP reference as closed in the system.

The assigner performs the following tasks:

- Reviews reference
- Assigns priority
- Forwards to concerned agency
- Prepare Final Reply
- Closes the reference

Assignee

Assignees receive assigned VIP references and can forward them to relevant user agency to share a final draft reply. Assignee can create draft reply for their assigned VIP references.

Assignees perform the following tasks:

- Prepares draft reply
- Forwards reference further if required

Initiator: Reference Creation and Entry

Create and submit the reference

Follow these steps to register the reference in the portal:

1. Click the **+ Add New Reference** button on the dashboard (see Figure 2).

Figure 2. Initiator Inbox highlighting Add New Reference button.

2. Fill the details of the reference in the opened form (see Figure 3).
Note: Initiator can save the reference as a draft or can forward to the next stage of workflow.

The screenshot shows the 'Reference' form in the 'VIP Reference Management' system. The form is divided into two main sections: 'Reference' and 'Document Review'. The 'Reference' section contains various input fields and dropdowns for assigning the reference. The 'Document Review' section contains a 'Select files here' button, which is highlighted with a red box and a red circle and arrow labeled '3'. Below this button is an 'Upload Document' button. The form also includes a 'Submit Reference' button at the bottom.

Continue editing a draft

If you have saved a reference as a draft but have not yet submitted it, you can finish it at any time.

To resume work on draft:

1. Locate the reference in the **Saved Drafts** Queue.
2. Click the **Continue Editing** button associated with that draft (see Figure 5).

View sent references

You can view the details of the references you have already created and sent to next stage of the workflow.

To view a sent reference:

1. Navigate to the **Sent Reference Queue**.
2. Under the **Actions** column, click the **Eye (View)** icon (see Figure 5).

The system displays the full details of the selected reference.

Assigner: Forward & Final Reply Preparation

Forward the reference

In the **VIP_Assigner** inbox, locate the reference you want to process and follow these steps:

1. Under the **Actions** column, click the **Pencil (Edit)** icon to open the reference (see Figure 6).

Figure 6. VIP Assigner Inbox highlighting Edit icon

2. In the **Action** tab, select a **Routing Type** (see Figure 7):
 - Select **Single**, to request a response from one user.
 3. Select an **Action Type**:
 - **Forward for Reply**: To request a draft reply from an Assignee.
 - **Final Draft Reply**: To prepare the final reply for closing.
 - **Discard**: To close the reference without further action.
- (Optional) Use the right-hand panel to upload supporting documents or view files uploaded by the **Initiator**.

The screenshot displays the 'VIP Reference Management' system interface. The left sidebar shows 'Workflow Queues' with options: VIP_Assigner, Closed_References, and VIP_Final_Reply. The main panel has tabs: Reference, Action, Create Draft Reply, Linked References, and Knowledge Base. The 'Action' tab is selected, showing a form with the following fields: Routing Type (Single), Action Type (Final Draft Reply), Action (Forward), Reply Type (Select Reply Type), Organization (MORTH), Office (Office of Minister), Designation (DBA), User (empty), and Comment For Action (Please Enter Comment). A red box highlights the 'Routing Type' and 'Action Type' fields, with a red circle and arrow pointing to them. Another red box highlights the 'Action' field, with a red circle and arrow pointing to it. The 'Create Draft Reply' tab is also visible, showing a form for 'PassUndertaking (2).pdf' with fields for Name (CAPITAL LETTER), Mobile No, and Signature.
